## CITYWIDE WATER WATCH STILL IN EFFECT

At this time the City of Sheldon is still in a water watch. This is a voluntary stage at this time, but we ask for the following:

1. No watering of lawns, shrubs or gardens between the hours of 8 a.m. and 8:30 p.m.
2. No water should be used to fill private swimming pools, children's wading pools, reflecting pools or any other outdoor pool or pond.
3. No water should be used to wash streets, parking lots, driveways, sidewalks or building exteriors.
4. No water should be used for non-essential cleaning of commercial and industrial equipment, machinery and interior spaces.
5. Water should only be served at restaurants upon request of the customer.

We will continue to monitor the situation as it warrants and further restrictions may be necessary if additional moisture conditions do not drastically change. The next step would be mandatory restrictions for water use and potential penalties if residents do not comply. If you have any questions, please contact the City Offices. Thank you.
